The Name of the PROJECT is : **DIFFERENT SO WHAT !**

- We are two secondary schools in Dunkirk (situated in the north of France)
In our school, we have pupils who have a motor disability or language disorders.
Our students pursue a total inclusive education, and that's why we carry out disability awareness-raising actions in our school.
- We would like to share our practices, exchange them, and discover other ways of inclusion with European schools.
- The project is based on the following points :
 - learn how to respect and add value to the differences
 - cooperate and collaborate on a collective project for inclusion
- To reach these objectives, the means used are :
 - adaptive sports for disabled pupils
 - shared sports, parasports
 - actions to raise awareness of difference (Cultural and artistic)
- We are looking for schools in order to discover other inclusive school systems.
- Possible programming :
 - Octobre 2019 : Transnational meeting n°1*
 - Novembre 2019 : mobility n°1 in France (The week of the shared sport)
 - First semester 2020 : mobility n°2 in partner country 1
 - Octobre 2020 : Transnational meeting n°2*
 - First semester 2021 : mobility n°3 in partner country 2
 - June 2021 : mobility n° 4 (for an Olympiad in France)
